Question related to PPE Regulation EN/prEN: Other:

Article: Annex: Clause:

Key words:
Innocuousness AZO Dyes

Question:
For which materials in footwear should the Notified Body require the test reports proving that the content of azo dyes listed in the directive 2002/61/EC is in accordance with the requirements?

Solution:
It should be noted that the PPE Regulation 2016/425 does not differentiate between materials likely to come into skin contact and those not likely. However, as a minimum, all materials present on the inner surface of the footwear should be assessed. Consideration should also be given to all other hazardous substances listed in Annex 17 of REACH.
